EXPERIENCE

Frontend Simplified — *Student*

July 2025

Through Frontend Simplified, I have created different mock websites to build my skillsets in HTML, CSS, and JavaScript.

Elementary Education — *Teacher*

July 2017-June 2022

My role as a teacher in multiple classroom settings has set me up for great success as a frontend developer. In my classrooms, I was required to be flexible, consistently participate in continuing education, work with new technologies as they were released, and maintain a classroom website.

EDUCATION

Frontend Simplified

July 2025

At Frontend Simplified, I learned everything I know. From HTML, to CSS, to JavaScript.

Southwest Minnesota State University, Marshall, MN

January 2013-June 2017

At SMSU, I received a degree in Elementary Education.

PROJECTS

Treact — *Mock website design*

My Treact project is a mock website where I combine my HTML and CSS skills. This website has the potential of being interactive with links to new pages.

SKILLS

I am able to confidently create websites using HTML and CSS as well as make them responsive for tablets and mobile phones. I also can work with JavaScript on a beginner level and am always working towards learning more.

LANGUAGES

HTML

CSS

JavaScript
